Note: Many Specialty reissues exist, some of which are very similar in appearance to '50s originals. Any with a zip code on covers are obviously post-1963 reissues. Discs from the '50s ere heavier than reissues. Many reissues have a raised vinyl ridge around the record's outer edge—originals do not. Any on colored, or semi-transparent vinyl are reissues. Some reissues do have an identifying copyright date.

Notes: Price range of Verve LPs is for commercial copies on the blue & black labels as well as white MGM/Verve labels. Several reissues came out in the early '80s that are nearly identical to originals, except their cover stock is glossier than are '60s issues. Among the reissues we have verified are: *Freak Out, We're Only in It for the Money*, and *Absolutely Free*.)
